# Bad Lands

## The Geography of Cities That Shouldn't Exist—and Why They Do

Geoff Gibson

Join Geoff Gibson, creator of Geography by Geoff, as he investigates the world's most geographically doomed cities

### THE PITCH

- **LARGE ONLINE PLATFORM:** Geoff's social platforms focusing on Geography include his Youtube channel (900K subscribers), and two podcasts (averaging 5K and 15K downloads per episode).
- **GROWING AUDIENCE:** Geoff's audience on Youtube has been growing steadily (from 500K in September 2024 to 919K in February 2026).
- **ACCOMPLISHED AUTHOR:** As a former city planner, instructor of geography at PSU, and successful public storyteller, Geoff is well-suited to explore this topic.
- **CURRENT TOPIC IN ACCESSIBLE FORMAT:** Bad Lands makes understanding our planet and cities through geography accessible with its ranked-list format, playful language, and case study-focused approach.
- **DISCUSSES CLIMATE CHANGE:** Bad Lands gives insight into the complicated questions like "What if the sea level rises dramatically?" that arise about the effects of climate change on humans.

### THE BOOK

Why is Phoenix running dry in the heart of the desert? Why is Jakarta slipping beneath the sea even as millions call it home? How has Napoli endured in the shadow of Mount Vesuvius, the same volcano that obliterated Pompeii—and what will happen when it erupts again?

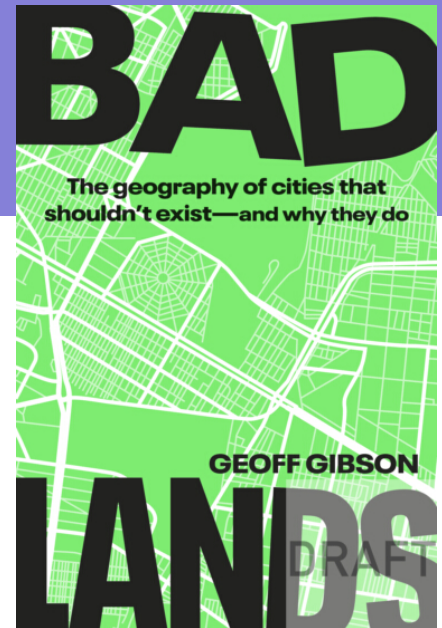

From their earliest beginnings, cities clustered near rivers, fertile soil, and safe harbors—the lifelines of civilization. And yet, some of the world's greatest urban centers rose in places that defy logic: parched deserts, sinking deltas, unstable fault lines, volcanic kill zones. What once promised opportunity now threatens catastrophe.

Bad Lands is a gripping exploration of cities built on the brink. Traveling across continents and centuries, it uncovers the bold ambitions, desperate gambles, and unintended consequences that shaped these improbable metropolises. Through vivid storytelling and sharp analysis, it reveals how geography—unyielding, indifferent, and sometimes violent—continues to dictate their fate.

At once history, investigation, and warning, Bad Lands asks a provocative question: When the land itself turns against us, can human ingenuity outrun disaster—or are some cities living on borrowed time?

# Youngest Faircrest and the Deadly Plot

Ollie George Clark

**Return to Bogsmarsh where our unlikely hero, Youngest, must uncover who wants him dead, and fast**

## THE PITCH

- **HILARIOUS MISADVENTURES:** When an assassin repeatedly kidnaps the wrong Faircrest, the result is a comedy of errors and a high-stakes, whodunnit mystery readers will love solving
- **TRIO RETURNS:** Join Agnes, Youngest, and Satchel on their most daring quest yet, and Satchel even has his own witty perspective chapters
- **FAST-PACED PLOT:** Between stolen magical artefacts and kidnappings, this adventure weaves multiple puzzles into an edge-of-your seat journey
- **RELATABLE CHARACTER:** Amongst the fantastical elements, Youngest's anxieties about himself make him an accessible protagonist

## THE BOOK

**Buckle up, we're heading back to Bogsmarsh; to the morning of Youngest's first sorcery lesson. The very same day he learned someone was trying to kill him.**

Youngest Faircrest just can't catch a break. He thought defeating Bogsmarsh's power-hungry villains would be the end of his troubles, but boy was he wrong. When he receives a chilling warning that someone is out to get him, Youngest, his best friend Agnes, and his piglet sidekick Satchel turn detective to unmask the truth. With the Welcoming feast bringing all the Deciders from across Rivell to town, Bogsmarsh is crawling with people who have means and opportunity. Danger could be lurking anywhere, and nobody can be trusted...

The second book in this rip-roaringly funny series is an edge-of-your-seat whodunnit packed with magic, mischief, and mystery. The stakes are high, and our hero is a little nervous about it all. But if we've learnt anything, you should never underestimate Youngest Faircrest.
