So, what does the science say?

Dr Bhaswati Bhattacharya draws on her decades-long experience integrating Ayurveda with modern medicine to get to the heart of this question. In *The Ayurveda Life*, she unpacks the science behind the ancient Indian healing system and cuts through the clutter to present guidelines for good health and longevity.

This book addresses the need for synergy between holistic wellness and modern medicine, especially in a post-COVID world. In doing so, it shines a spotlight on the three pillars of health within Ayurveda – ahara (diet and food), vihara (lifestyle and activities), and anushadha (medicine). It provides insights into how concepts like gut microbiome, circadian rhythms, and epigenetics align with Ayurveda.

In-depth sections explore the herbs, minerals, and foods at the heart of Ayurveda. Recipes for tonics, treatments, meals, a practical schedule for daily living, and easy-to-follow exercises paired with advice from ancient texts and some of the greatest Ayurvedic vaidyas (doctors) make this a definitive book on Ayurveda, where science and tradition coexist for healthier and more harmonious living.

Masking for It

A Queer Memoir

Theo Walker

An embarrassingly hilarious story of queer coming of age, coming out, and coming too quickly

THE PITCH

- **LARGE SOCIAL MEDIA PLATFORM:** Theo has a dedicated and active fanbase and community of over 1.5M followers.
- **COMING-OF-AGE MEMOIR:** Theo weaves his narrative of self-discovery with a series of anecdotes from his life, from childhood to present day.
- **HILARIOUS, SHARP VOICE:** Theo's writing style is quick, self-mocking, and unexpectedly lyrical, capable of pivoting from comedy to poignancy without losing the reader.
- **THE DARK SIDE OF SOCIAL MEDIA:** Theo's memoir reveals what it's like to discover fame via social media, all the good that comes with it, and all the darkness that can arrive too.

THE BOOK

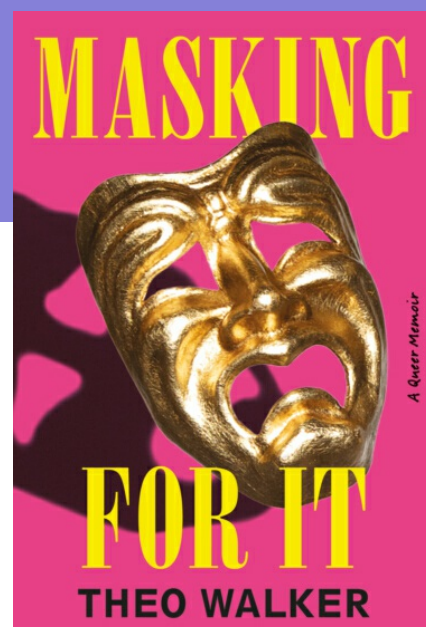

As a gay kid in a rural town in the U.K., as an actor, a social media star, and as someone with ADHD, Theo Walker has worn many masks in his daily life. This coming-of-age memoir is a rollicking, wickedly funny, yet radically honest account of what happens when you stop performing.

From the "Operation Straight Boy" survival strategies of his youth to the disorienting chaos of present-day fame, Theo explores the gradual construction—and eventual cracking—of the personas we adopt to survive. This memoir traces a path through the "heteronormative pressure cooker" of the British school system, where survival depends on diminishing yourself, toward a searingly observed and layered exploration of what it costs to finally be seen. (He'll get there. Eventually.)

Along the way he shares his experiences of being beaten up and thrown in hedges, accidentally streaming gay porn to the living room TV, him and his girlfriend making each other gay, the trauma of high school, drama school, stalkers, social media trolls paying for his influencer lifestyle and his perpetual yearn for success and love (and attention).

THE AUTHOR

Theo Walker is a British actor and content creator with over 1.5 million followers across his social platforms. Theo acquired a BA in acting from the prestigious Royal Central School of Speech and Drama (alumni including Graham Norton, Dawn French, Jennifer Saunders, Judi Dench and Andrew Garfield), has worked with many notable brands, has commanded lead roles in London theatres and is working on a TV series written for the BBC Writers room.

Not from Concentrate

Distraction-Proof Recipes for Busy Brains

Catherine Smart

A new approach to cooking for neurodivergent brains and beyond

THE PITCH

- **RAPIDLY GROWING TOPIC:** According to a 2023 CDC report, an estimated 15.5 million (6.0% of the US population) has a current ADHD diagnosis.
- **A TIMELY OPPORTUNITY:** In October of 2024, the *New York Times* ran an article with the headline, "Cooking With A.D.H.D. Can Be Overwhelming. These Cooks Are Finding Ways to Thrive", which touched on how keeping oneself fed well can be particularly challenging for ADHDers.
- **NEW VOICE IN THE FIELD:** Catherine Smart is a seasoned food writer and on-screen cooking personality, but she's only recently begun branching out into social media. This is an exciting opportunity to work with a rising star.

THE BOOK

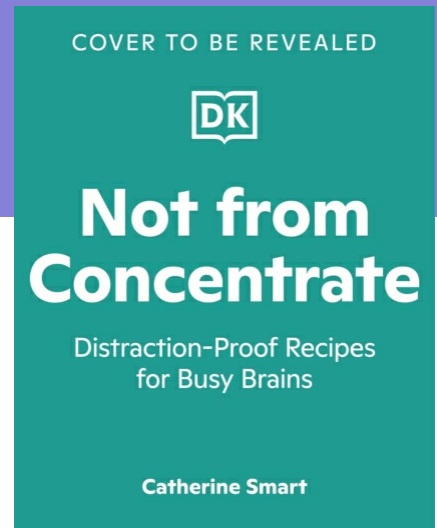

Catherine Smart was diagnosed with ADHD as a child, and she recognized her busy brain as a superpower long before it was cool. After all, ADHDers thrive in the kitchen, which scratches the itch for novelty, creativity, and excitement.

But, for a busy brain, planning ahead, shopping for ingredients, and following multi-step directions can also be a tall order. As can following non-essential directions (do you really need a full mis-en-place?) That's why this book is designed to be as distraction-free as possible with instructions for what to actually do first, clear and concise directions on ingredient prep, and ideas to keep the process fun.

The Mental Clarity Diet

Uma Naidoo

Harvard Nutritional Psychiatrist Uma Naidoo explains how your metabolism and immune system can make or break your mental clarity, and reveals how the right diet can help get rid of brain fog.

THE PITCH

- **WRITTEN BY AN EXPERT:** Dr Naidoo is a Harvard Nutritional Psychiatrist, expert on the link between diet and mood, and a trained chef. Her previous book, *This Your Brain on Food*, sold over 200k copies in the US
- **EXTREMELY TIMELY (AND YET PERENNIAL) TOPIC:** Will immediately appeal to readers with the promise of a way to live and thrive in our unsettled times (global politics, economy, climate etc)
- **CLEAR, ACTIONABLE ADVICE:** Offers a 90-day protocol, including practical strategies and tools based on the author's own extensive research, as well as recipes and meal plans
- **GREAT TOPIC:** 'Brain fog' is a common experience and symptom of many health issues, including menopause – changing your diet is an effective strategy to reduce and/or overcome it

THE BOOK

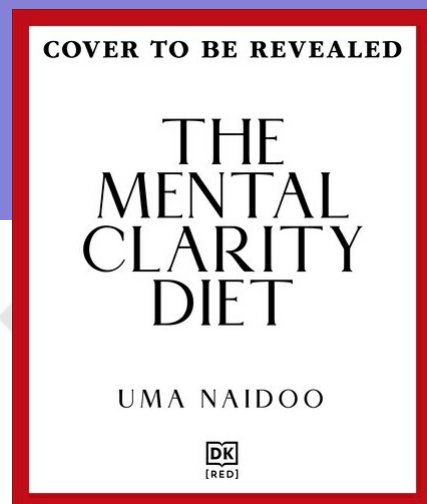

All of us have experienced brain fog, struggling to focus our attention on the task at hand, unable to manage a constant stream of distraction. We tend to respond by eating or drinking things that we sense might help - a calorie-laden meal to comfort us, a bit of sugar or caffeine to give us a boost – when really, a brain-healthy diet is what we need for mental clarity.

In this practical book, Dr. Uma Naidoo draws on cutting-edge science and her own clinical experience to reveal how a healthy diet can help you achieve a clear mind, with sharp concentration that doesn't waver until you want it to. A clear mind that is resilient, able to manage the demands of daily life without becoming overly fatigued or burning out - and is also able to relax into periods of healing mental rest. A clear mind that can maintain a stable mood and regulate emotions, warding off threats to mental health like depression and anxiety. And a clear mind that is long-lasting, remaining strong and agile amidst the natural effects of ageing on memory and cognitive agility.

Targeting different aspects of mental clarity, Dr. Uma will explore how to incorporate a variety of key 'focus foods' into a full mental clarity eating plan, complete with a 90-day protocol and a selection of recipes for brain-healthy meals. Offering clear actionable advice, you will learn how foods can reduce or heighten your exposure to oxidative stress, how a proper diet can promote optimal rest, and the foods that bolster mitochondrial function to combat brain fog.

The Parent You Have

Whitney Goodman

Society expects unconditional devotion to our parents, yet we support people leaving toxic romantic partnerships or unhealthy work environments. *The Parent You Have* confronts this double standard head-on, providing validation and practical tools for the thousands of adults asking: How do I continue a relationship with a parent who continues to hurt me?

THE PITCH

- **Written by an expert:** Whitney is a psychotherapist and leading authority on adult family relationships through her popular Instagram account @sitwithwhit (567k followers) and private therapy practice. She facilitates monthly support groups for estranged adult children and adult children of emotionally immature parents.
- **Untapped market:** there has been a lot of interest in family estrangement in recent times, thanks to high profile fall-outs between celebrities and their children. At the same time there is a lot of stigma surrounding child-parent estrangement and while most books on the subject are written from the perspective of the parent, this will be one of the few books written for the adult children of difficult parents.
- **Full of practical advice and strategies:** for readers considering going no contact, low contact or seeking to repair their relationship with a parent.
- **Strong backlist potential**

THE BOOK

Drawing from her extensive clinical experience and research drawn from over 2,000 estranged adult children, Whitney Goodman delivers an accessible guide that will help readers to:

- Understand the underlying causes of difficult parent relationships
- Address the shame that comes from having strained parent relationships
- Manage present-day dynamics with their parent
- Navigate the complex decision between maintaining contact, going low contact or choosing estrangement
- Accept the parent they have - while grieving the parent they wanted
- Recognise when reconciliation is possible and implement safe strategies for healthier connections

The author's approach is unique as it focuses on the present relationship in adulthood, not just what happened in the past. And while most books on parent-child estrangement tend to be from the parent's perspective, *The Parent You Have* gives a voice to adult children navigating these difficulties.

THE AUTHOR

Whitney Goodman is a psychotherapist and leading authority on adult family relationships through her popular Instagram account @sitwithwhit, her private therapy practice and as founder of *Calling Home*, a podcast and virtual community for adults working on family relationships. She also facilitates monthly support groups for estranged adult children and adult children of emotionally immature parents. She is the author of *Toxic Positivity*.

Whether you want to enhance your wellbeing, navigate conditions like seasonal affective disorder, or more fully appreciate the intimate connection between the human mind and the natural world, *Head in the Clouds* offers a radical new perspective. Discover how understanding the influence of the elements can empower you, turning the simple act of observing the skies into a valuable toolkit for mindfulness, acceptance and everyday joy – whatever the weather.

- **SOCIAL PRESENCE:** Since December 2025, Roe's Instagram following has grown from 28K to 91.7K and she's built a TikTok following of 54.1K in two months

THE BOOK

You don't need to be an expert to enjoy the outdoors. You just need to be curious.

From journalist and natural history enthusiast Hannah Roe comes Britain's Weird and Wonderful Countryside, a fascinating compendium of the most intriguing features and forgotten secrets found across the British countryside. This is the ultimate field guide for anyone who has ever paused on a walk, noticed something unusual, and wondered: what's that all about?

With a spirit of old-fashioned adventure, Hannah invites you to see the countryside anew, revealing hidden stories written into stone, street and skyline. Set out across the UK with Hannah as she unravels the landscape's secret language, answering questions like:

- why do geese fly in a V formation?
- what is the hidden significance of deer parks?
- how do you tell an ancient hill fort from an average hill?
- why are the houses a specific colour in the Cotswolds?
- why do so many place names in Kent end with '-den'?

Beginning with a broad exploration of how to read the land – its geology, place names, wildlife and human history – this book equips you with the tools to turn even the simplest walk into a mini adventure. With these new detective skills, you'll then set out across England, Scotland and Wales, uncovering the quirks and quiet wonders that make each region unique.

Whether you're planning a weekend wander close to home or you're heading off on a staycation, Britain's Weird and Wonderful Countryside is your invitation to discover the weird and wonderful right on your doorstep.
